

Scribe

The ASP Scribe has the dimensions and feel of a fine writing instrument. It is easily carried in a suit pocket, shirt or pants. The rear button activation is instantly accessible, rapid and quiet.

The Scribe is a one hand light. There are no complex settings, elaborate activation codes or secret functions. A simple push of the button provides brilliant intermittent or constant illumination.

The uniqueness of the Scribe is the amount of technology that has been compressed into the form factor. Each Scribe is built to professional law enforcement standards. Red and Blue bright dip anodized lights are accented with a black clip. A precision ground glass lens is optically clear. The heat treated pocket clip is replaceable. A constant current circuit board drives a Cree XPG2 to 190 lumens as measured against the ANSI FL1 Standard. A heat management system controls the body temperature of the light. The mirror polished aluminum reflector provides a penetrating central beam with a room illuminating halo.

The Scribe light accepts universally available AAA alkaline batteries. Newly introduced ASP AAA Lithium power cells run substantially longer than their alkaline counterparts.

Easily carried. Conveniently clipped. Incredible intensity at the touch of a button. The ASP Scribe. Simply Brilliant.

- Black Type III Hardcoat Anodizing
- Red or Blue Bright Dip Anodizing
- Easily Attached Pocket Clip
- 190 Lumens (ANSI Standard)
- 1.5 Hour Run Time
- 5.5" Long

Scribe . . . Simply Brilliant

Background

- Designed to professional law enforcement standards
- Aerospace aluminum construction
- Precision machined
- No sharp edges
- O-ring sealed for maximum water resistance
- Distinct profile

Specifications

Length	5.5"	139.7 mm
Diameter	.61"	15.5 mm
Weight	2.2 ounces	62.4 grams
	(with batteries)	
System	3 volt	
Flashlight Output	190 lumens (ANSI Standard)	
Run Time	1.5 hours	

Body

- 6061 T6 high strength aluminum
- Matte black Type III hardcoat anodizing
- Red or Blue bright dip anodizing
- Coated threads for durability
- Exterior and interior scratch and corrosion protection
- Rear clip groove

Clip Set

- Detachable pocket clip

Power Cell

- 1.5 volt Lithium AAA
- PTC protected
- Safety vent
- Ten year shelf life
- Leak proof
- Vibration resistant

Switch

- Back mounted
- Quick and positive switch location under stress
- O-ring sealed activation button
- PC board positive circuit contact
- Sensitive and quiet switch activation
- Computer micro switch controlled
- Self-cleaning (no carbon buildup)
- Fail safe (backup) switch circuits
- Replaceable modular switch assemblies
- Rotate one full turn to prevent accidental activation
- O-ring sealed switch cover

Reflector Assembly

- Extremely durable
- Non-dulling metalized surface
- Computer calculated parabola
- Long distance penetrating beam
- Room illuminating halo
- Tempered optical glass lens
- Gasket sealed

LED Assembly

- Proprietary heat management
- Custom driver
- Smart chip technology
- Gasket sealed

Warranty

- Limited Lifetime

AAA Lithium Power Cells are available worldwide. ASP Link™ cases provide battery protection and storage.
